

## **WIKAI USA Now Offers Complete Line of Instrument Valves and Assemblies**

June 4, 2019

### **Lawrenceville, GA – SAMI Instruments S.R.L. acquisition enables WIKAI USA to provide valve assemblies to customers**

Since WIKAI Group's acquisition of SAMI Instruments S.R.L. in July of 2017, the team at WIKAI USA has been working diligently to integrate SAMI's instrumentation valve technology into WIKAI's product portfolio.

As a result, WIKAI USA now offers a wide range of complete low torque instrument valves, including ball valves, needle valves, check valves, and instrument manifold valves with pressure ranges from 6,000 psi to 10,000 psi. All WIKAI instrument valves meet B31.1 and B31.3 design specifications, and come standard with a 5 year warranty. Additionally, all WIKAI valves come with certificates supplied to 3.1 and NACE standards at no additional cost.

The addition of low torque instrument valves and valve assemblies to WIKAI's product portfolio streamlines ordering for customers, while continuing to provide the quality products WIKAI is known for. For more information, or to order valves from WIKAI please contact [valves.us@wika.com](mailto:valves.us@wika.com).

#### **About WIKAI**

For 73 years, WIKAI has continuously advanced instrumentation for pressure, temperature, level, and flow measurement. Leveraging decades of experience, we developed a broad selection of stock and custom instrumentation as well as engineering services to support plant safety, productivity, and profitability. A global leader in lean manufacturing, WIKAI has manufacturing locations around the globe, which enables flexibility and the ability to meet high delivery demands. [www.wika.us](http://www.wika.us)
