

WIKAL USA Adjusts Level Product Line to Align with Global Product Names

September 4, 2019

Lawrenceville, GA – Level product line form, fit, and function remains the same.

WIKAL USA has made a couple of minor adjustments to our level product line, in an effort to better align with the WIKAL Group on a global level. These changes solely affect product names. Form, fit, and function will continue as is and will offer the same quality level our customers are accustomed to.

The “WIKAL Magnetic Indicator,” or WMI product line is being renamed to align with the “BNA” global model name. WIKAL USA quotes are already being generated using this new product name, and nothing needs to be done on the part of our customers to adjust to this change.

Additionally, our level chamber offering is changing from the “WIKAL Level Chamber,” or WLC name to the global BZG name. Once again, WIKAL USA quotes are already being generated using this name, and customers need not make any changes to accommodate this name change.

More information on Model BNA can be found [here](#), while additional information on the BZG is [here](#).

About WIKAL

For 73 years, WIKAL has continuously advanced instrumentation for pressure, temperature, level, and flow measurement. Leveraging decades of experience, we developed a broad selection of stock and custom instrumentation as well as engineering services to support plant safety, productivity, and profitability. A global leader in lean manufacturing, WIKAL has manufacturing locations around the globe, which enables flexibility and the ability to meet high delivery demands. www.wika.us
