

## WIKAI Sensor Technology Looks to the Future

June 24, 2021

**Lawrenceville, GA – WIKAI USA announces the creation of a new company, WIKAI Sensor Technology, formerly tecsis, LP.**

WIKAI USA's relentless focus on future technologies and opportunities has prompted many changes in the organization over the years. WIKAI works every day to develop new technologies and work with like-minded companies through acquisitions and partnerships.

tecsis, LP is one of those partners, and was fully integrated into the global WIKAI Group of companies as of January 1, 2018. Over the course of its lifetime, tecsis developed into a reliable global manufacturer of measurement technology. The solutions tecsis is known for range from [custom load cell systems for hospital beds](#) to the [off-the-shelf force measurement portfolio](#).

As of 2021, WIKAI has updated tecsis, LP's name to reflect the focus on providing integrated, forward-looking measurement solutions. WIKAI Sensor Technology, LP will serve as WIKAI USA's hub for integrated measurement solutions with a focus on force, pressure, and supplementing IIoT technologies. This new brand will primarily serve our industrial markets around machine building/automation, custom machine solutions, OEM off-highway (mobile working machines), and expand our expertise in serving aerospace and space applications.

### About WIKAI

For 75 years, WIKAI has continuously advanced instrumentation for pressure, temperature, level, and flow measurement. Leveraging decades of experience, we developed a broad selection of stock and custom instrumentation as well as engineering services to support plant safety, productivity, and profitability. A global leader in lean manufacturing, WIKAI has manufacturing locations around the globe, which enables flexibility and the ability to meet high delivery demands. [www.wika.us](http://www.wika.us)
