## WIKAI USA Launches MH-4 CAN

### Lawrenceville, GA – WIKAI USA Launches MH-4 CAN - A High-Performing OEM CAN Pressure Sensor for Mobile Working Machines

WIKAI USA, a leading manufacturer of pressure and temperature measurement instrumentation, is proud to announce the launch of the MH-4 CAN, a cost-effective and technically capable OEM CAN pressure sensor for mobile working machines. With its advanced electronics, robust sensor design, and comprehensive validation testing, the MH-4 CAN offers performance stability and the best possible operational reliability throughout its life cycle.

Designed for the extreme operating conditions of mobile working machines, the MH-4 CAN offers CANopen and SAE J1939 communication protocols, making it a high-performing, robust, and reliable pressure sensor. Its small stainless steel casing size is shared with the field-proven MH-4, offering the added benefit of customer-specific adaptations and individualization.

"The MH-4 CAN is a game-changer for the mobile working machine industry," says Chad Reinhard, Senior Product Manager at WIKAI USA. "Our customers can now benefit from the exceptional performance, stability, and reliability that the MH-4 CAN offers, along with the ability to [customize](#) and adapt the sensor to their specific needs. We are excited to bring this innovative solution to market."

Ideal for high-volume production, the MH-4 and MH-4 CAN are perfect OEM pressure sensors for any kind of mobile working machinery. To learn more about the [MH-4 CAN](#) and [MH-4](#) family of products, please visit our website.

#### About WIKAI

For over 75 years, WIKAI has been committed to advancing instrumentation for pressure, temperature, level, and flow measurement, while simultaneously embracing digitalization, decarbonization, and demographic change. With decades of experience and expertise, we have developed a diverse selection of stock and custom instrumentation, as well as engineering services, to support plant safety, productivity, and profitability in a rapidly changing world. As a global leader in lean manufacturing, WIKAI has manufacturing locations around the globe, which enables flexibility and the ability to meet high delivery demands.
