

WIKI USA UNDERSTANDS LNG

9 North American LNG Liquefaction Projects
>8K Flow, Pressure, Temperature and Level Instruments and counting

Over the last four years, WIKI USA has delivered reliable instrumentation and project support for EPCs in LNG, helping ensure safe, compliant, and efficient measurement solutions from engineering through commissioning.

Total Combined Project
Capacity:
approximately
154 MTPA

2911 Flow Elements

1628 Temperature Elements

3401 Pressure Gauges

112 Level Instrumentation
